

## **HORSE ISOLATION POLICY – ADOPTED BY BOARD OF DIRECTORS JANUARY 10, 2010**

1. WRER residents must provide the following documentation to the WRER Barn Manager at least 3 business days prior to arrival of the resident's horse(s) that are to be stabled in the Equestrian Area: These requirements are for new horses(s) OR horse(s) who have been removed from WRER property six consecutive months. Provide proof of ownership, lease agreement, or trial agreement. (Lease or Trial agreement shall be for a specified duration as agreed upon by the Barn Manager). Provide a health certificate (dated within the last 30 days) from a practicing veterinarian. Complete a Horse Information Form. Provide a valid Negative EIC Coggins certificate (applicable to horses arriving from out of state). Proof of current vaccinations: Combo 4: E. W. Encephalomyelitis, Tetanus Toxoid and Equine influenza, Combo 5 or 6 includes the addition of Rhinopneumonitis. Highly recommended is West Nile. Consult your veterinarian about Strangles and Rabies. If all documents are in order, no quarantine will be necessary. Failure to generate the above documentation will result in the WRER resident's horse(s) placed into isolation for a period of 7 to 14 days as designated by the Barn Manager.
2. Any horse(s) shipped by a commercial hauler with any other horse(s) besides the WRER resident's horse(s) will be placed into isolation for a period of 7 to 14 days as designated by the Barn Manager.
3. If at any time during the arrival process, the Barn Manager should determine that said horse or horses may be "off", ill, or missing proper veterinarian documentation of health and immunizations, horse or horses will be placed into isolation unless the WRER resident can provide a clean bill of health from a practicing veterinarian.
4. During isolation period, horse(s) will only be allowed in designated isolation stalls and designated round pen. (pen will be designated as such with signage).
5. Isolated horse(s) should not be in any common area, arenas or other barns, turnouts or round pens.
6. Barn Manager is responsible for authorizing the release of said horse(s) from isolation. Any questions in this regard should be directed to Barn Manager.
7. Visiting horses and guests will be allowed to ride in the arenas provided they are accompanied by homeowner and the guest has signed the Resident's Guest Release and Hold Harmless Agreement.
8. Buddy horses used to keep company and calm isolation horses stay the entire duration of the horse being isolated.

### **QUARANTINE POLICY**

1. Quarantine of an animal is imposed at the direction of a veterinarian.
2. During quarantine period, horse(s) will only be allowed in designated isolation stalls and designated round pen (said pen will be designated as such with signage).
3. Quarantined horse(s) shall not be in any common area, arenas or other barn, turnouts or round pens.
4. Procedures for feeding, cleaning stalls or handling quarantined animal(s) will be at veterinarian's direction.
5. Horse(s) must be cleared by veterinarian in order to leave quarantine and return to general population.
